AdvancedJet AJ-740 Maintenance

As with all Roland inkjet printers, the AJ-740 is a solid production machine.

Roland build their machines to be as rugged and reliable as possible, and as with all high volume production printers, regular maintenance will ensure your machine performs at it's optimum.

The AJ-1000 comes with a standard RolandCare Silver Warranty Package which provides you with:

- 3 hour Technical Support Response
- 2 day on-site response window
- 2 preventative maintenance visits during the year
- Along side these, Standard Head Cover is also included meaning that if your heads fail within their life expectancy you get replacement heads installed for you for FREE
- For full details of all of our RolandCare service and support packages, and for information on upgrading to a gold package please see the service area in our website. Alternatively contact Roland customer service for more information.
